How to Install Custom Sceneries in World Racing 2
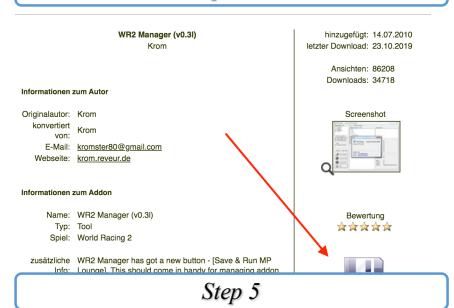

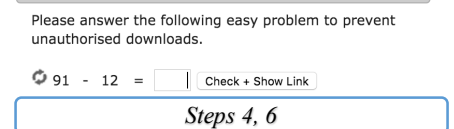

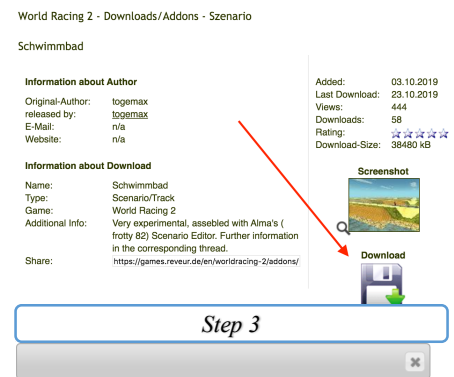

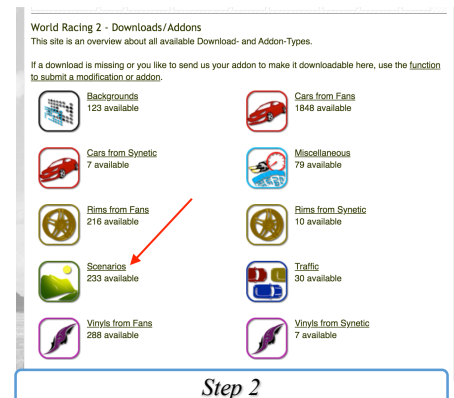

Introduction

The following will describe how to install custom sceneries and racetracks in the game World Racing 2. For World Racing 2 players on PC (Windows XP or later), custom sceneries and racetracks allow for more places to drive and perform in races provided for by the community, such as in the Swiss Alps.

⚠️ Note that the website (https://games.reveur.de/en) used to obtain the scenarios is community-driven, hence the quality may vary across different downloads.

Instructions

1. Navigate to the following website:
https://games.reveur.de/en/worldracing-2/addons/

2. Click on "Scenarios"

Step 2

3. Find a scenario that you wish to add, and then click "Download"

4. Solve the math problem to get the link, and then click the link to download to your computer

5. Browse to the following link and click the download icon:
https://games.reveur.de/en/worldracing-2/addons/fans/tool/single/104/WR2-Manager--v0-3l-.html

6. Solve the math problem to get the link, and then click the link to download to your computer

Step 3

Please answer the following easy problem to prevent unauthorised downloads.

$91 - 12 = $ [ ] Check + Show Link

Steps 4, 6

7. If you already have a tool capable of unzipping compressed files (with file extensions `*.zip`, `*.rar`, `*.7z`), then continue to step 16. Otherwise, browse to the following website to download an unzipping tool: https://www.win-rar.com/download.html?&L=0

Step 5

⚠️ You may have 32-bit Windows, in which case you would need to install a 32-bit version of WinRAR. The following link will outline how to check how many bits your operating system version is: https://support.microsoft.com/en-us/help/827218/how-to-determine-whether-a-computer-is-running-a-32-bit-version-or-64

8. Download WinRAR by clicking the "Download WinRAR"

9. Click the "Continue to download WinRAR" hyperlink

Step 9

Step 10

10. Navigate to the folder where WinRAR was downloaded and double click the executable file.

11. Select the appropriate destination folder, and then click "Install"

⚠️ WinRAR appears to be a free trial, but in fact you can continue using it after the 40 days
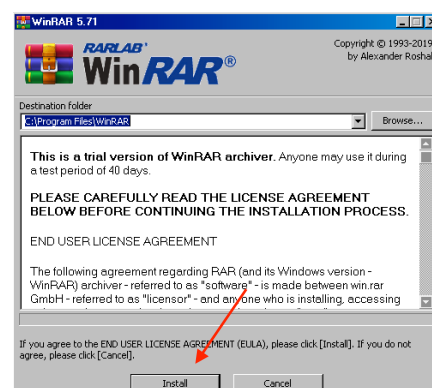

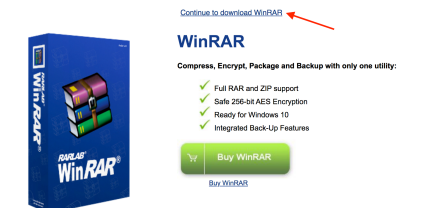

Step 12

12. Select the files extensions that you want associated with WinRAR. At minimum, it is recommended to select RAR, ZIP and 7Z. After, press "OK"

13. After WinRAR was successfully installed, press "Done".

14. Double-click on the file downloaded while obtaining your desired scenery.

Step 13

15. Locate your World Racing 2 installation directory.

⚠️ You can obtain this by right+clicking on the desktop shortcut, clicking properties and viewing the target. In this example, the folder would be located at C:/Documents and Settings/Horatiu/My Documents/World Racing 2

16. Select all the folders in the original WinRAR window, and extract all to the World Racing 2 directory

17. If you already installed the WR2 manager, skip to step 20.

18. Extract the AddOns folder and WR2Man.exe file to the World Racing 2 directory.

🛑 Before proceeding to the next step, make a backup of the `"WR-Saves"` folder, `"FrontEnd\WR2.ds"` and `"FrontEnd\runtime.fxp"` files, as recommended by the creator in the `Readme.txt`

19. Open the `WR2Man.exe` file in the World Racing 2 directory.

20. Select your player profile in the top left corner.

21. Check the boxes for the scenarios that you want to add to the game.

22. Click "Save & Run WR2" to save all changes and play the game!
